FROM THE CREO TEAM

A note from Ben

Kia ora,

When a new playground opens, your name is on it. Principals stand in front of their school community, councils answer to their ratepayers and landscape architects see their vision judged in public. That pride is well earned, and so is the pressure that comes before it.

At Creo, everything we do comes back to one idea: **Building Futures**. A playground is more than equipment in the ground. It's where tamariki learn to take risks, make friends and find their confidence, and where communities come together for years to come. We take that responsibility as seriously as you do.

That's why **you deal with one person from the first phone call to final sign-off**. Our pricing is published openly, and the quote you take to your Board or council is the price you pay. For councils, that means tender-ready documentation and NZS 5828 certification from day one. For schools, it means support with funding applications. For landscape architects, it means a build partner who delivers your design, not ours.

Behind all of it is one promise we have kept since 2016. **On time and on budget, every single time.**

Every future starts with a conversation. I would welcome the chance to start yours.

Ben Witty

Ben Witty
Creo Team Lead

IN THEIR OWN WORDS

What a future feels like

Krystal Woodard

Deputy Principal · Homai School

It teaches our children that they deserve beautiful spaces, and that they also have a responsibility to care for them.

📍 Homai School Playspace

Cameron Lockie

Principal · Silverdale School

Play space is very important to us. Making sure that we have enough space for all our 840 tamariki to run around and have fun in.

📍 Silverdale School Playground

Ryan Fraser

Principal · Ardgowan School

We needed something that wasn't just for the school but for the wider community as well.

📍 Ardgowan School shelter

Liz McMillan

Mayor · Ashburton District Council

It's probably about a hundred times better than what I thought it was ever going to look like.

📍 Mini Mid Canterbury Mini Golf

Matthew Crumpton

Principal · Orakei School

For me personally, it was important to be working with the right people. Having people there that can support you through the process.

📍 Orakei School Playspace

Raydeen Cuffe

Botanic Garden Visitor Experience Manager

It's one of those multigenerational playgrounds. It's one of those places where you'll make memories that will go on for generations.

📍 Wellington Botanic Garden

Cindy Walsh

Principal · Freemans Bay School

One day I went and I counted how many children were on that playground at one time, and I got to 140.

📍 Freemans Bay School Playground

Garry Page

Reserves Manager · Opotiki District Council

Everything Creo said it would deliver, we see out here being delivered.

📍 Whitiakau Reserve

Maddy Dowman

Parks Projects Manager · Queenstown Lakes District Council

It's huge for the community and we couldn't be more proud to deliver it for them.

📍 McPhee Park Playground

Jacqueline McDonald

Principal · Mangere Central School

We look like a new school, and we feel like a new school.

📍 Mangere Central School Playground

Rob Scott

Mayor · Southland District Council

The best thing that we can do is to leave the world better than we found it. This kind of project is definitely doing that.

📍 Lions Park Playground

Richard Wood

Sport & Recreation Manager · Ashburton District Council

This is the project I think I'm gonna be the most proud of in my career.

📍 Mini Mid Canterbury Mini Golf

Prisma

Where imagination takes shape and
adventure reaches new heights.
